

# Field Trips – Curriculum Enrichment 2016/17

These trips are an integral part of the curriculum

We aim to keep costs to parents as low as possible but it is a means of extending the educational facilities

Some of the larger lists include alternatives

Some are joint class trips

For M.S in particular, the field trips should launch topic work. It is our intention that as many off-site activities as possible give opportunity for pupils not only to investigate first hand but to respond/follow up with a contribution to that area of creation or community. Educational visits also serve to provide alternative 'classrooms', facilities, resources and workshops where pupils can benefit from enriched situations and inspirational environments.
