GEORGE WASHINGTON CARVER

BACKGROUND

- George Washington Carver was brought from Africa to northern states of USA.
- He was kidnapped.
- His master cared for his slaves and rescued him.
- Mr and Mrs Carver brought him up
- ❖ George grew up to go to church

EDUCATION

- He had to pay his own fees to go to school.
- Carver walked to school because it was only down the road.
- As he had graduated primary school, he moved on to Minneapolis High School.
- Applied to Highland College
- He was rejected because he was black.
- Applied to Simpson College.
- Learned piano and art.

RESEARCH

- Helped poor farmers.
- Farmers should feed hogs acorns and fertilize their crops with swamp muck .
- Resulted low yield (produce).
- Crop rotation
- Farmers loved the crop rotation but something that didn't need to in the process happened;
- An excess of peanuts and sweet potatoes
- He developed more than 300 products from peanuts alone

DISCOVERY

- Massive discovery for the poor.
- Growing cotton took nutrients out of the soil.
- Crop rotation
- Use it to keep the soil have all its nutrients and
to grow the following : peanuts, soya beans ,
sweet potatoes.

Thank
you for
Listening
!!!!
